## Boomerang Refresh

### Training

After some requests and issues in the process, we decided to create and send to all of you some guidelines.

This week we choose to help you to create a cleaner and how process the reimbursement in Boomerang.

From now on, feel free to ask new guidelines if you need or if you note people acting differently about the same subject.

If you have any further question, don't hesitate to creating a new ticket in Boomerang for the Financial team.
