Boomerang Refresh

Updates

Client report:

As everybody knows, we already have clients using Boomerang to export the time attendance report and since it is happening, we already have some requests of developing.

We are releasing the Total Hours columns for them, this week, as requested.

With this information, that we already have in our view, the client will be able to see it as well.

It is the total hours worked between the check in and check out for each cleaner in each site.

Next Steps

Our IT team is working in develop the Purchase Order area, which will make easier to request the Consumables and the General Material.

As soon as we have the start and finish date of the development, we will let you all know.

Reminder

As everybody already knows, but we always think it is a good reminder, please use the Tickets Type correctly.

It will make possible to take correct reports and to find easily the tickets in the future.

If you have any further question, don't hesitate to create a new ticket in Boomerang for the Finance team.
